Branding Your Ebook

Your ebook should be branded before distribution or some links will not work. If you do not want to brand your ebook, a non-brandable edition is available [here](#).

The following links in the ebook are brandable:

- The title and link following the text "Brought to you by:" on the front cover.
- The title and link at the bottom of every alternate page.
- The ClickBank Affiliate ID on page 89.

The current edition of the ebook is 1.3. If you have an earlier edition, be sure to download the latest edition before continuing.

Now, if you are ready, let's begin the branding process.

Download

If you have not done so already, download the following files into your hard disk:

- `b_online_hbb.pdf`
- `help_online_hbb.pdf`
- `brander.exe`

If you do not want to brand the ebook, the non-brandable edition of the ebook is `nb_online_hbb.pdf`. Just download it and you can use it as you would any PDF file.

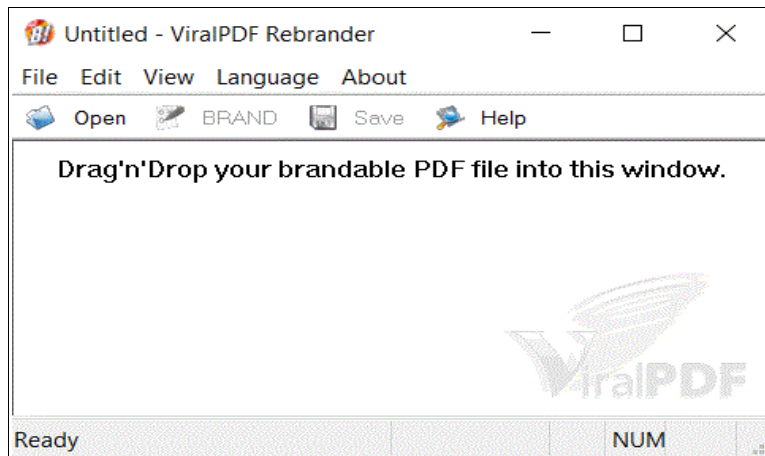

All files can be downloaded from [here](#). If you don't know where to save the files, you can save them to your desktop for easy access.

Read the Help File

Open and read the help file, help_online_hbb.pdf (this file). You are doing this now.

Run the Brander

Run the brander, brander.exe, by double clicking on it. A window similar to the one below will open:

Loading the Ebook

Drag and drop the ebook, b_online_hbb.pdf, into the brander's main window. Alternatively, you can also use the "File >> Open " command, and navigate to where you stored the ebook.

The brander will take a moment to process the ebook, after which you will see the following screen:
