Branding Your Ebook

Your ebook should be branded before distribution or some links will not work. If you do not want to brand your ebook, a non brandable edition is available [here](#).

The following links in the ebook are brandable:

- **The title and link following the text "Brought to you by:" on the front cover.**
- **The title and link at the bottom of every alternate page.**

Now, if you are ready, let's begin the branding process.

Download

If you have not done so already, download the files b_procrastinating.pdf, help_procrastinating.pdf and brander.exe onto your hard disk.
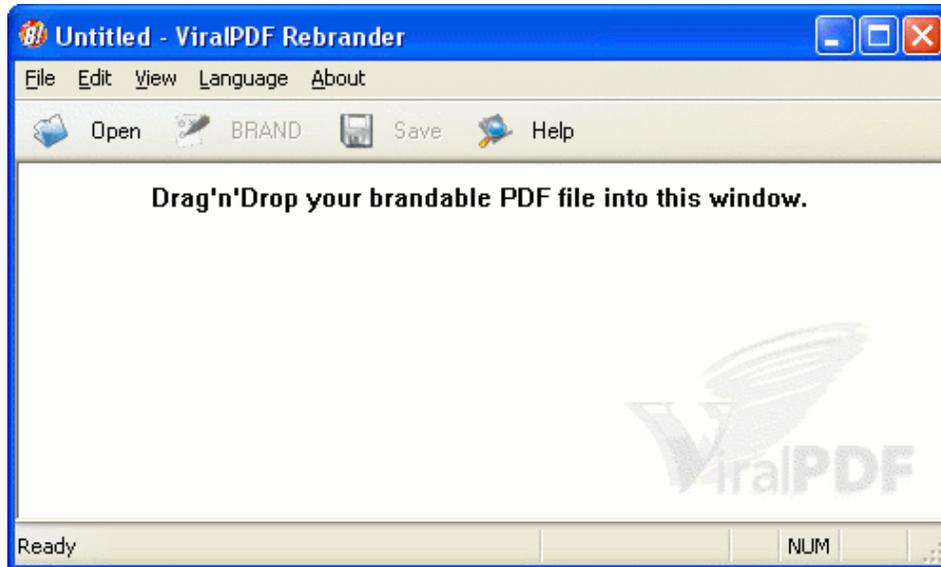

If you don't know where to save the files, you can save them to your desktop for easy access.

Read the Help File

Open and read the help file, help_procrastinating.pdf (this file). You are doing this now. ;)
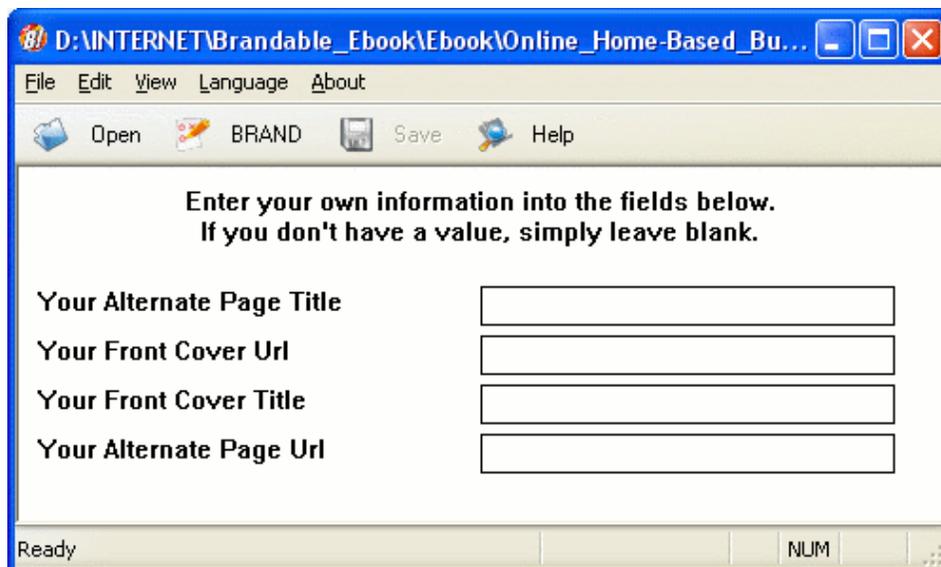

Run the Brander

Run the brander, brander.exe, by double clicking on it. A window similar to the one below will open:
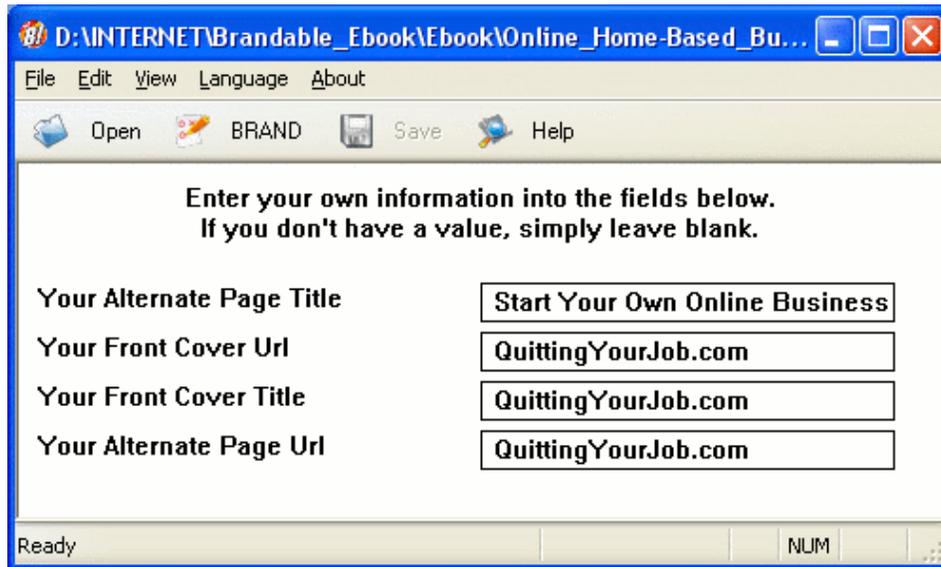

Loading the Ebook

Drag and drop the ebook, b_procrastinating.pdf, into the brander's main window. Alternatively, you can also use the "File >> Open " command, and navigate to where you stored the ebook.

The brander will take a moment to process the ebook, after which you will see the following screen:

Branding the Ebook

Fill in the title and sites for the front cover and alternative pages. After you are done, the screen will look something like this:

Remember to enter your titles and urls, and not what is shown above. ;)

> **Important:**
>
> **Urls must be typed in without the "http://".**

Once done, click on the "BRAND" button at the top. You will get a screen telling you to remember to save your file and the "SAVE" button on the brander will become clickable.

Click on the save button to save your branded ebook.

Testing

Open your newly branded ebook. Check that the title and site

names are correct. Click on the links to make sure.

And you are done.
